Import/Copy ⓘ You may enter your entities and entity information manually below, or choose "Import/Copy" to upload a completed spreadsheet from the USAC template or to copy from a completed FY2015 application

If you wish to copy or import data from a spreadsheet, you must do that first before adding any entities manually.

Enter the entity number for all school districts and library systems. For schools and libraries that are not associated with a district or system, enter that school or library's entity number. Not sure of your Entity Number? Use [our lookup tool](#).

GREENUP COUNTY PUBLIC LIBRARY (BEN 128896)

Please enter ALL of the library and non-instructional facilities in your system, even if you are only requesting funding for some of them. We need this information to calculate your discount. Good news! Because you are entering all of your libraries here, you will not need to enter them again on this application.

Submit Cancel

Once the entity number is entered, the name, FSCS code, and urban/rural designation should fill in.

If you have a new building and no FSCS code has been assigned, don't worry; you can leave it blank.

This is now based on designations in the 2010 Census, so a county-wide library system could have some branches that are urban, and some that are rural.

NIF = non-instructional facility. Select this option if you're requesting discounts for a library administration building.

Choose public for main libraries and branches. There are also options for bookmobiles, kiosks, and new construction.

If you're entering information for your main (or only) branch, you will add the entity number for the school district where that building is located. This information is only required for main libraries. Starting this year, library discounts are based on the school lunch numbers in the district where the main library is located.

Rural Enrolled in District District Eligible For NSLP Percentage of Students in District Eligible for NSLP

This is the library's E-rate discount. See the [discount matrix](#) for details.

GREENUP COUNTY PUBLIC LIBRARY

Next, tell us about the current connectivity in your library/library system.

The FCC wants you to provide this information so they'll know how close they are to achieving their broadband goals of:
- 100 Mbps for libraries in cities of under 50,000
- 1 Gbps (a gigabit) for libraries in cities of over 50,000 people.

Connectivity Questions

How many libraries that are part of the library system serve a population of less than 50,000?

2

Some of you may have branches in both categories (under 50,000 and over 50,000).

How many of these libraries serving populations less than 50,000 have Internet access of
less than 100 Mbps
at least 100 Mbps but less than 1Gbps
at least 1 Gbps

Fill in all the boxes, using zeroes where needed.

2
0
0

How many libraries that are part of the library system serve a population greater than or equal to 50,000?

2

How many of these libraries serving populations greater than or equal to 50,000 have Internet access of
less than 100 Mbps
at least 100 Mbps but less than 1Gbps
at least 1 Gbps

2
0
0

How many of the libraries that are part of the library system have Wide Area Networking connections that are scalable to 10 Gbps?

0

Consult with your IT people, but unless your bandwidth is close to 1 Gbps, the answer is probably zero.

How many libraries in your library system have LAN/WLAN capacity and coverage?

- Completely sufficient to support the educational or library activities conducted here
- Mostly sufficient to support the educational or library activities conducted here
- Sometimes sufficient to support the educational or library activities conducted here
- Rarely sufficient to support the educational or library activities conducted here
- Not sufficient to support the educational or library activities conducted here

0
3
1
0
0

Here they're asking:
how reliable is your
Internet access at
your branches? Is it
perfect all the time,
or could it use some
improvement?

For those schools and libraries that do not have sufficient LAN/WLAN capacity and coverage to support the educational objectives or library activities conducted at that location, is the reason (check all that apply):

- ☐ Equipment too costly
- ☐ Installation too costly
- ☒ Broadband connection speed to building is too slow
- ☒ Inadequate local area network (LAN) services/internal networks and wiring
- ☐ Outdated equipment
- ☒ Lack of training and technical support
- ☐ Inconsistent service/frequent outages and down time
- ☒ Physical structure or layout of building(s)
- ☐ Other: If so, please provide it here

If you indicated that access at any of
your branches was not completely
sufficient, you'll be asked to explain
why. These answers have no impact on
the processing of your form.
